

Alice Hurley

Coach
Consultant
Account Director
International Business Leader
Skiing and Travel Enthusiast

Profile

Alice Hurley is an experienced business coach and international Account Director. She combines her coaching expertise with a 25 year track record as a Board level leader, consultant and Account Director for organisations such as Shell, BP, EDS and Logica. Alice pioneered the internal coaching agenda at Logica through being one of the first accredited internal coaches worldwide and then 'rolling out' an integrated coach skills training programme in the UK business. She has worked on a number individual and team coaching programmes at senior levels in the organisation and also for the charity, Dr Barnardo's. She believes in taking a holistic view to coaching with particular experience in working with complex time management and career planning issues. She is also a great networker with a natural inclination to get people linked and working together. This has led to such diverse outcomes as establishing a geotechnical forum for the oil community in Stavanger, to a regular rowing group on the Dubai Creek!

Estimate of Total Number of Individuals Coached	>30 on a 1:1 basis plus >120 team coaching/training
